

Olga Bunevich

Vancouver, Canada · olgabunevich@aitbart.com · https://aitbart.net/portfolio

Key Skills & Expertise: Transformation strategy; Al to ROI (use-case selection, KPI design, value realization); Portfolio & change leadership; Value tracking (OKRs/KPIs); Risk, privacy & regulatory alignment (OSFI B-13, PIPEDA/BC PIPA, EU AI Act); Enterprise architecture; Stakeholder management.

Headline: Head of Digital Transformation | AI to ROI | Portfolio & Change Leadership | Regulated Environments

Professional Summary

I connect strategy to measurable outcomes. In 90 days, I prioritize 2–3 high-value use cases (often AI & automation), set clear KPIs, and deliver the first results. In 180 days, I scale adoption, embed change management, and publish a value dashboard. I've led transformations across banking, telecom, and critical infrastructure, managing teams up to 500 while aligning risk and compliance.

Executive Impact Highlights

- Sberbank: SME lending transformation for 1M+ clients; 99% operational efficiency and +40% revenue uplift; AI, cloud, CRM/CVM integrated.
- JSC Power plant Intricate construction Engineering Division-ASE: lifecycle digitization with BIM/CAD/analytics for safety-critical engineering; improved transparency and risk control.
- BS&S/Teleform: scaled from startup to 500+; delivered national AI/ML and data platforms across finance, aviation, and energy.
- VimpelCom: established ITIL-based operations and compliance; improved customer satisfaction and service KPIs.

Professional Experience

Executive Director · Head of Technological Strategy

Sberbank | Moscow, Russia | 2019 – 2024

- Owned transformation roadmap for SME segment; aligned product, risk, and operations.
- Delivered lending ecosystem serving 1M+ clients; 99% efficiency and +40% revenue uplift.
- Integrated AI risk models, cloud services, CRM/CVM, and omnichannel experiences.
- Led change management programs and KPI dashboards for executive reporting.

Head of Architecture & Integration Solutions

(ASE) JSC Power plant Intricate construction Engineering Division | Moscow, Russia | 2018 – 2019

- Directed digital modernization across power-plant-construction-engineering lifecycle (BIM/CAD/analytics).
- Increased project transparency, traceability, and regulatory adherence in a safety-critical domain.

Chief Executive Officer (CEO)

BS&S and Teleform | Russia (National) | 2009 – 2018
